a review of latin grammar designed for advanced students preparing to take the sat ii the nle and the a p latin tests

via plana adopts a radically new systematic approach to the teaching of advanced latin grammar through the medium of unseen translation rather than just another random collection of unseen exercises presented to the student in the optimistic hope that somehow they will muddle through and absorb some of the finer points of latin grammar along the way it provides a graduated learning environment suitable for those approaching points of grammar for the first time

and for those revising the same points at a later stage each chapter presents in detail a grammatical feature and then reinforces understanding of it through translation exercises set at five graduated levels this offers sixth formers and university undergraduates a smooth road to fluency via a structured series of exercises primarily translation passages extracted from major latin authors focusing specifically on each grammar feature in turn and graduated in difficulty to match the students increasing level of ability

excerpt from advanced latin composition this book is divided into three parts each of which provides material for a one hour course throughout the year the exercises are based upon outlying parts of caesar and cicero unfamiliar to students in the earlier part of their college course parts i and ii are designed specially for freshman work they both cover practically the same ground thus making it possible to use the book in successive years without employing the same exercise twice in preparing the passages for translation into latin two ends have been kept in view first to test the student s knowledge of forms and syntax at the places where data collected from the work of successive classes has shown the freshman student to be weak and second to illustrate a few of the finer points of composition which cannot be adequately treated in the preparatory school this latter feature renders the footnotes necessarily rather bulky the exercises are arranged in a careful sequence and should be used in the order in which they stand to secure the most satisfactory results part iii provides suitable work for students who have completed either part i or part ii about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
